

Will your class make a #POLLINATOR PLEDGE?

Dear Year 4 lead,

Hello and welcome to your #PollinatorPledge 2022 pack!

Hampshire Countryside Service has put together a jam-packed collection of free and fun lesson plans and activities on the topic of pollination for Year 4 classes to enjoy.

The pack, which has been made to help you deliver key pollination lessons in line with the KS2 national curriculum, covers a variety of activities, including:

- **Plants and pollinators ID sheets:** What can your students spot around the school premises?
- **The pollination game:** How do pollinators carry pollen from plant to plant? Have fun in this practical outdoor lesson with supplied instructions, wings, and pollen tokens to cut out.
- **'Pick your pollinator' card game:** Who trumps who in the top pollinator challenge? Learn what makes the best pollinators and why.

You'll see that we've included a copy of all the activities in this folder, but if you want to print out further copies of the activity sheets, scan the QR code or visit: lookingafternature.co.uk/protectourpollinators/

We would love to inspire your Year 4 classes to make their own #PollinatorPledge that prioritises the protection and support of our pollinators. **We've included seed packets for you to use on the school premises, and we'd love to see how you come together to create your own pollinator-friendly patch.** No matter how big or small a space you have, it can make a difference – all it takes is some creativity and imagination to create a space for nature to thrive!

Please tag us on @HampshireCountryside and @HampshireCountrysideService or email us at the contact details below to keep us updated!

Finally, to encourage the children to get involved in protecting our pollinators and making their #PollinatorPledge, **we're offering a Year 4 class the chance to win a full activity day at Runway's End worth £855!** Full competition details can be found enclosed.

We hope you love the pack and find the contents useful. For all questions and general feedback, please contact Seren.Burton@hants.gov.uk. We would love to hear your thoughts and how you've found the lessons and contents.

Best wishes,
The Hampshire Countryside Service
